Stellar Technologies is a Woman and Minority owned SDVOSB innovative services and solutions firm whose founding partners bring in 30+ years of Information Technology and Cyber Security expertise. As a veteran owned business, we are mission driven providing rapid implementation of high value solutions bringing quality and reliability to government initiatives and offer end-to-end leading edge solutions that are tailored to fit our clients' needs.

Differentiators : What sets our company apart is the deep understanding of disruptive and current technologies, driving rapid results and customizing transformative solutions, especially in extending system capabilities, enhancing integration, and optimizing analytics for day-to-day operations.

We offer services through our **RAID** Innovative methods:

- ⇒ **Radical:** Replacing existing technologies to keep up with market trends
- ⇒ **Architectural:** Reconfiguration of existing systems and solutions
- ⇒ **Incremental:** Improvements or upgrades
- ⇒ **Disruptive:** Dramatically challenge existing technologies

Stellar Technologies LLC's mission is to collaborate with our government and commercial partners by providing value-based cutting-edge solutions that will enable them to succeed in their strategic mission and goals.

Our team of certified and **TS/SCI CI Poly-cleared** professionals provides unrivaled services, enhanced productivity, and cost-effective solutions, ensuring customer satisfaction. We offer unique and effective solutions through innovation and technology, focusing on a wide variety of services areas.
